PROJECTS

Balanced Plates Meal Planner

2024

Front-end Web Development Project

- Collaborated in a team of 6 to successfully produce a webapp using JavaScript, HTML and CSS.
- Developed features and worked using the Agile approach to project management.
- Knowledge of GitHub Version Control and branches was used to collaborate.
- Extensively used problem solving and communication skills to overcome hurdles.

<ReactTrivia /> Quiz App

2024

Front-end Web Development Project

- Collaboration on a React based project, using component-based approach for app building.
- Use of npm packages and libraries to develop web app.

WORK EXPERIENCE

CoreStream GRC

London, UK

Senior Configurator

2025 – Present

- Promoted to Senior Configurator within 10 months into a newly established role, being recognised for strong performance, ownership, and technical contribution.
- Led and supported a team of 4 Configuration analysts, overseeing project delivery, config quality and timeliness across simultaneous projects, whilst instilling a framework of best practices and config principles.
- Took ownership of complex requirements, using a balance of technical skills and GRC specific knowledge.
- Supported onboarding and upskilling of team members, sharing a depth of knowledge around platform features and configuration knowledge, promoting a collaborative environment.
- Identified more than 270 config issues before projects went live, significantly reducing the overall errors and support issues raised by clients whilst improving accuracy and customer satisfaction.

Configuration Analyst

2024 – 2025

- Designed and delivered client facing solutions using solid configuration knowledge and best practices, turning complex requirements into clear, actionable tasks and helping projects run more smoothly.
- Raised ~40 platform issues and user stories, directly contributing to measurable improvements in platform usability and overall functionality.
- Delivered 5+ end to end client projects and contributed to over 20 projects in total, including more complex implementations for major clients such as Stryker, ensuring solutions met both business and user needs.
- Played a key role in developing the Snapshotting functionality, leading early configuration and continuous testing to debug and ensure stability of the platform feature before release.

edX

London, UK

Front End Web Development Course

2024

- 16 week Front-End web development course focusing on HTML(ES6), CSS3 AND JavaScript.
- Used JS fundamentals to create dynamic, interactive user experiences and client side functionality.
- Applied semantic HTML5 to improve structure, maintainability and accessibility of web content.

Youth Committee Role

London, UK

Lead role: Communication & Publications

2018 – 2026

- Initiated more than 40 graphic design campaigns to market events on a large scale for 50-200 attendees.
- Implemented online coverage for an annual event (post COVID) and increased attendance by 15%.

EDUCATION

University of Nottingham

Nottingham, UK

BSc Mathematical Physics

2019 – 2023

- Strong foundation in Mathematics, problem solving and computational methods.

VOLUNTEERING

- Partaking in regular volunteering activities since 2016 organised by The Ahmadiyya Muslim Community.
- Volunteered for leafleting in Central London and interacting with the public, feeding the homeless, event, clean-up and food packing for events and deprived communities.
- Worked in a team as a volunteer for traffic guidance for the last 6 Jalsa Salana UK events, which is a 3-day annual event attended by over 30,000 people.

INTERESTS, ACHIEVEMENTS & AWARDS

- Producing graphic designs/art on a commission basis for clients since 2015 to help them market and develop a professional image. Took initiative to self-teach a specialised understanding of Creative Adobe programs and designed a website to host commissions. This required business drive, time management to produce the products on time and an attention to detail which is transferable to the tech industry.
- Interest in music and achieved distinction in Grade 5 ABRSM qualification in Music Theory.
- **Awards:** Digital Media Technical Award (x2), HCA Turner IT Award, BA Language Award
